EasyDisc front-mounted mowers	10 - 11
Technical data	11

The heart of every EasyDisc disc mower is the proven monoblock cutter bar. This cutter bar is also used in the PowerDisc series and is the guarantor for ideal cutting results, thanks to its special design.

## Monoblock cutter bar

- The sleek design ensures optimal cut and problem-free crop flow.
- Front offset cutter discs prevent interference in the mowing zone.
- An easy-to-change cutter bar cover prevents damage to the cutter bar
- Hardened spur gears ensure a long service life.
- Maintenance - free, generously dimensioned bearings for maximum durability and smooth running.
